*...from our Town Council. Following reports of anti-social behaviour, littering and rubbish dumped and/or left on Went's Meadow and the Withy Beds the police have listed Went's Meadow and the Withy Beds as their 'hot spot of the month' for June and July. This means that, in addition to the regular patrols, officers will be required to provide daily updates following proactive patrols which will be reviewed by the local Sergeant daily. The Town Council asks that if you are using the Meadows you take your litter home with you if at all possible (and if not use the bins provided) and that you follow the current lockdown rules for Wales and not meet up in larger groups etc. Members of the public should not hesitate to ring 101 if they notice any incidents of anti social behaviour so the police can attend.*

*...from Jenny B. Thanks on behalf of everyone to Barbara Sheers for making so many free face masks. Excellent work !*

*...from our Town Council about changes in the High Street which will be implemented shortly by the County Council in Presteigne High Street, to enable social distancing. This is an unprecedented time, and the measures the authority is taking in towns across the county are in accordance with Government guidance and legislation, to ensure social distancing can be maintained as more stores and businesses reopen, and with the anticipated increase in footfall as and when travel restrictions are eased in the future.*

***The work will be undertaken on 30th June** and will involve the removal of the on street parking (the disabled parking bays will remain but may be relocated slightly) to establish wider footpaths on either side of the High Street. Traffic cones will define a central highway for traffic passing through the street. The two parking spaces opposite the Farmers Inn will also be removed. Please note, stores will be permitted to temporarily move the cones for deliveries - provided the public (who may be queuing in the space) are not put at any risk, and the cones are put back in place after the delivery has been made.*

*Once this first step has been implemented the measures can be refined as required, and Powys County Council look forward to working with the County Cllr, town council and community during this process.*

***The Town Council would like to hear the views of as many residents and businesses as possible and will discuss possible solutions at its meeting on 15th July once a trial period of the PCC measures has been completed.***

*Please note - for every space lost on the street a parking space will be allocated in one of the town car parks and parking in those spaces will be free for one hour.*

*A map of the proposed changes can be found on the Council News page of the town website here [www.presteigne.org.uk/town-council/council-news/](http://www.presteigne.org.uk/town-council/council-news/)*

**...from Kings College/Zoe about their C-19 Covid Symptom Study Tracker.** Nearly 4million in the UK are contributing to this essential study but, as we ease lockdown it's more important than ever that as many people as possible are reporting daily in your area to avoid an

unanticipated second wave. **Please sign up to the NHS-backed Kings College/Zoe C-19 virus tracker by downloading the free app onto your pc, tablet or phone.** Simple daily reporting takes only 1/2 minute or less a day. Thank you for helping our scientists to understand Covid-19 better and provide essential analysis daily to the NHS. You can report individually or also for others in your family.

A grand total of £135.10 was raised towards the local food bank and £190.10 so far raised for the bench in memory of Nigel Powell due to some extra private donations. There's still some more money coming in towards the new bench and if you'd like to make a donation I can send over banking details or just post it through the door at the pub. Your support has been greatly appreciated and we hope to see you all again sometime soon.

Please help to keep you & us safe by having no more than 4 people in the bar area at any one time! We have managed to get 3 tables in the bar area & 3 in the restaurant, plus plenty of seating in the garden. Looking forward to seeing you all again

**...from Arrowfield Vets. 'Tis the season for Ticks!** Are your pets up to date with their parasite control? Flea and tick prevention and worming treatment can be ordered by phone and then collected from either Kington or Presteigne. Ticks are spider-like parasites that suck blood - they bite and feed on your dog or cat for up to a few days, and then drop off once they've had enough! As well as being unpleasant, during this time it's possible the tick could give your pet a nasty disease called Lyme's disease.

STOP ticks from biting your pet by using a tick treatment that kills them if they attach.

CHECK your pets regularly for ticks. To avoid squeezing the body or leaving the head in, you'll need to twist the tick off. This is best done using a tick removal tool.

REMEMBER ticks can attach to people too!
